SKILLS

- **Languages**: C++, JavaScript, C, PHP, Python, Linux
- **Frameworks**: HTML and CSS, Bootstrap, NodeJS, React, Next.js, Tailwind CSS, React Native
- **Databases:** MySQL, MongoDB, PostgreSQL
- **Platforms & Tools:** Git, GitHub, Postman, Firebase, VS Code
- **Soft Skills**: Problem-Solving Skills, Team Player, Project Management, Adaptability

INTERNSHIP

Celebal Technology   June 2025 – August 2025
Full Stack Developer

- Developed a full-stack Appointment Booking System using Node.js, Express.js, and MongoDB, delivering a scalable and efficient platform for managing appointments.
- Implemented JWT authentication and integrated features for file uploads and email notifications, enhancing system security and user experience.
- Collaborated with cross-functional teams to meet technical and functional goals, ensuring a smooth project workflow and high-quality deliverables.
- Optimized system performance, solved real-time issues, and ensured a seamless user experience, improving overall system scalability and user satisfaction.

Incupad India Pvt. Ltd.   March 2024 – November 2024
Full Stack Developer

- Led frontend development for an AI-based chatbot using **React.js** and **Tailwind CSS**, delivering a responsive and user-friendly interface.
- Integrated **Firebase Authentication** and **Google services** to enhance platform security and streamline user access.
- Developed and connected **Django RESTful APIs**, enabling efficient communication between frontend and backend systems.
- Collaborated with backend developers, AI specialists, and project managers to meet technical and functional goals.
- Solved real-time issues and implemented optimizations to improve chatbot performance, scalability, and user satisfaction

Banao Technologies   August 2023 - March 2024
Python Django Developer Intern

- Developed high-performance backend services using Django 4.2.6, building RESTful APIs with Django REST Framework (DRF 3.14.0) for smooth data exchange.
- Implemented secure authentication using JWT and OAuth 2.0 with Google Sign-In, improving access control and login experience.
- Integrated AWS services via boto3 and managed databases using mysqlclient and psycopg2, ensuring efficient cloud storage and reliable data management.
- Optimized database performance and handled secure configuration, ensuring scalability, code efficiency, and improved query performance.

Atilla Technology   January 2023 – August 2023
Full Stack Developer

- Specialized in backend web application development using Django, PHP Laravel, and JavaScript technologies, building robust and scalable applications.
- Integrated third-party APIs like Google and Razorpay for payment processing, enhancing functionality and user experience.
- Collaborated with cross-functional teams, facilitating effective communication and problem-solving to achieve project milestones.
- Implemented optimizations and solved real-time issues, improving performance, scalability, and user satisfaction.

PROJECTS

MicroCourses Platform: October 2025 – October 2025

- Developed a dynamic online learning platform that offers micro-courses with progress tracking and certification.
- Designed and implemented a responsive frontend using Next.js and Tailwind CSS for an intuitive user experience.
- Built RESTful APIs using Django to manage courses, enrolments, and student performance analytics.
- Integrated Firebase for real-time notifications and authentication.
- Added a certificate generation module to automatically issue verified completion certificates.
- Implemented course recommendation logic to suggest personalized learning paths for users.
- Developed an admin panel to manage courses, instructors, and users efficiently.
- Project selected and developed during a hackathon conducted by a reputed company, showcasing teamwork, innovation, and technical proficiency.

Tech: Next.js, Django, PostgreSQL, Tailwind CSS, Firebase, REST API, React.js

NyayDetect Game: November 2024 – February 2025

- Developed an interactive web-based gaming platform offering a seamless user experience.
- Utilized Next.js for building a fast, modern, and responsive frontend interface.
- Built a robust backend using Django, ensuring secure and scalable API integration.
- Employed PostgreSQL for efficient data storage and management of user and game data.
- Ensured smooth user interactions with features like real-time game updates and dynamic routing.
- Integrated frontend and backend for efficient data fetching and improved performance.
- Designed a mobile-friendly and visually appealing UI to enhance user engagement.
- Focused on scalability and responsiveness to handle future growth and feature expansion.

Tech: Next.js, Django, PostgreSQL, Tailwind CSS, REST API, React.js
